

Chapter highlights

- **Purpose:** This chapter defines information technology (IT) and telecommunications small purchase guidelines.
- Key points:
 - Set asides are required for micro businesses for all procurements under \$10,000 when the price quoted is fair and reasonable and does not exceed five percent (5%) of the lowest responsive and responsible non-certified bidder. Set asides are required for DSBSD-certified small businesses, for all procurements up to \$100,000 when the price quoted is fair and reasonable and does not exceed five percent (5%) of the lowest responsive and responsible noncertified bidder.
 - Reviewing available statewide contracts for IT or telecommunications goods and services allows agencies and institutions to determine if the technology product or service needed can be purchased through a statewide contract.
 - A Quick Quote or RFP may be used for small purchases up to \$200,000.
 - All procurements for cloud-based solutions (Software as a Service), regardless of dollar amount, are subject to agency compliance with the requirements in [VITA's Third-Party Use Policy](#).

Table of Contents

15.0	Introduction
15.1	Competitive requirements

15.0 Introduction

The Virginia Information Technologies Agency (VITA) has procurement authority for all information technology (IT) goods and services for agencies and non-exempt institutions of higher education. See [Chapter 1](#) of this manual, Purpose and Scope, for further information on VITA's IT procurement authority as well as VITA's Authority and Delegation Policy for IT procurements and exemptions.

An IT procurement is considered a "small purchase" when the aggregate or sum of all phases of the procurement is not expected to exceed \$200,000. Emergency procurements of goods and services available on an existing statewide contract are not subject to VITA's small purchase requirements.

The delegated authority for IT goods and services is provided in the Authority and Delegation Policy located at the following URL: <https://www.vita.virginia.gov/supply-chain/scm-policies-forms/scm-policies/>

- All agencies have up to \$250,000 in delegated authority for IT that is out of scope

to VITA (e.g. agency specific applications). For a list of in scope and out of scope goods and services, please visit the "How to Place an Order" page at this URL: <https://www.vita.virginia.gov/supply-chain/place-an-order/>

- Procurements between \$200,000 (small purchase limit) and \$250,000 (VITA's delegated authority amount) must be procured competitively utilizing competitive sealed bidding or competitive negotiation.
- Delegated authority for IT that is in scope to VITA varies as follows:
 - All agencies have \$0 in delegated authority for Cloud Services (Software as a Service (SaaS), Platform as a Service(PaaS), and Infrastructure as a Service (IaaS)).
 - Agencies that are not in scope to VITA services have \$250,000 in delegated authority for infrastructure and enterprise applications.
 - Agencies that are in scope to VITA services have \$0 in delegated authority for infrastructure and enterprise applications.

Procurement requests and orders shall not be split to circumvent delegation limits.

Before performing a small dollar purchase for IT goods or services, agencies and institutions should search the IT statewide contracts available on VITA's Web site at:

<https://vita.cobblestonesystems.com/public/>.

Reviewing VITA's available statewide contracts allows agencies and institutions to determine if the technology product or service needed can be purchased through an existing competitively procured IT statewide contract. Use of VITA's statewide contracts is mandatory for the acquisition of all IT goods and services, including small purchases. If there is not a VITA statewide contract available for the needed IT good or service, a procurement will be conducted. At any time, an agency may request that a small dollar technology purchase be procured on its behalf by VITA by completing and e-mailing the requisition form, which can be found by logging into your agency's eVA account at: <http://www.eva.virginia.gov/>.

Agencies shall utilize [eVA](#) for e-Mail, quick quote and catalog purchasing to meet the number of quotations ultimately required for each dollar threshold limit. As required by [§2.2-4303\(G\)](#) of the *Code of Virginia*, purchases that are expected to exceed \$30,000 shall require a written informal solicitation of a minimum of four bidders or offerors. [eVA's](#) functionality can provide the needed minimum written quotes required by [§2.2-4303 \(G\)](#). Agencies and institutions may also utilize eVA's e-Mail, quick-quote, catalog purchasing functionality as well as DSBSD's Web site for solicitations where the transaction is between \$5,000 and the dollar limit (\$250,000).

All procurements for cloud-based solutions (Software as a Service), regardless of dollar amount, are subject to agency compliance with the requirements in VITA's Third Party Use Policy located at this URL: <https://www.vita.virginia.gov/it-governance/itrm-policies-standards/>.

15.1 Competitive requirements

The following competitive requirements shall be followed for all small IT purchases, regardless of delegation:

Procurements up to \$10,000 – In accordance with [Executive Order 35 \(2019\)](#), all procurements up to \$10,000 are set aside for DSBSD certified micro businesses when the price quoted is fair and reasonable and does not exceed five percent (5%) of the lowest responsive and responsible noncertified bidder. Micro businesses are those businesses that have been certified by the Department of Small Business and Supplier Diversity (DSBSD) that have no more than twenty-five (25) employees and no more than \$3 million in average annual revenue over the three-year period prior to their certification. Quotes shall be solicited from a minimum of one DSBSD-certified micro business via [eVA](#).

Procurements over \$10,000 up to \$100,000 – [eVA](#) Quick Quotes shall be solicited from at least four (4) DSBSD-certified small business sources, including small businesses owned by women, minorities and service-disabled veterans and micro businesses, if available, in writing. In the procurement selection process for these set-asides, at least one of the proposals/bids shall be obtained from a micro business unless upon due diligence no micro business in a particular category exists or was willing to submit a proposal/bid. If two or more DSBSD-certified small business sources cannot be identified as qualified to set aside the procurement under \$100,000, the procurement file shall be documented with VITA's efforts through eVA to obtain the number of required sources. An award may be made to a qualified, reasonably ranked DSBSD-certified small business, including minority-, women-, or service disabled veteran-owned small business or micro business offerors, if available, that is other than the highest ranking offeror if the price submitted is fair and reasonable, and does not exceed five percent (5%) of the lowest responsive and responsible noncertified bidder. If an informal RFP is utilized in lieu of Quick Quote the award shall be made to the highest ranking and qualified small business, including small woman-, minority-, service disabled veteran-owned or micro business offeror. If the procurement is set aside and the agency or institution receives no acceptable bids or offers, the set aside may be withdrawn and the procurement resolicited utilizing non-set-aside procedures. In estimating the total cost of the procurement, all possible renewal periods on a term contract must be considered to determine if the procurement will not exceed \$100,000.
