

IT Goods & Services Commodity Codes

July 1, 2017

This spreadsheet lists the commodity codes that VITA and the Dept. of General Services has agreed upon as IT Commodities. As such, all of the codes listed in this document are subject to VITA Policy and Procedures. Executive Branch agencies, which are considered in-scope to the VITA's Infrastructure program, utilize this list to determine which commodity code purchases can be made under their \$100,000 delegation (those coded with a "N"). For these agencies this list should be used in conjunction with the "IT Consumables List" posted on the VITA website.

Other agencies and non-exempt institutions of Higher Education should use this list solely to identify which commodity groups are subject to VITA Policies and Procedures rather than those published by the Dept. of General Services. Any questions should be sent to: scminfo@vita.virginia.gov
