Goran Gustavsson, APA

Also Attending:

Mauri Shaw, VITA CSRM

Topic: Update 2011 Risk Management Committee Planned Deliverables:

From 2011 to continue in 2012:

1. Develop and present high level presentations to educate agency management (e.g. AITR Meetings) – centering on How does Risk Management fit within the larger context of Information Security – using IT Security Framework as a roadmap.

Deliverable #1 – Josh will email his company's Risk Presentation prior to April RM meeting for review - topic should be ready for presentation to the ISOAG meeting in June 2012.

2. Develop and present in-depth training for IT Risk Management similar to "ISO Orientation".

Deliverable #2 – Ross and the committee will review deliverable #1 – and flush out related SEC501-06 related areas and review VDEM new deliverables to incorporate any new requirements – Ross is planning on presenting topic in Sept 2012.
