NASCIO
Representing Chief Information Officers of the States

Consistent with the MS-ISAC's awareness mission, the MS-ISAC develops and delivers the Cyber Security Awareness Toolkit materials to all 50 States, the District of Columbia, various U.S. Territories, and many local government across the nation. The purpose is to promote a consistent message about cyber security education and awareness and provide products for broad distribution. The goal is that through our materials, we will provide necessary information to improve everyone's cyber security posture.

This Cyber Security Calendar was developed as part of that effort.

Each year, the MS-ISAC conducts a children's cyber security poster contest to encourage students, parents and educators to participate in cyber security awareness. Each state is encouraged to conduct its own contest; the winning state submissions are entered into the national MS-ISAC contest, and those winners are included in this Cyber Security Calendar.
