

VITA Statewide Network Equipment and Services Contract #VA-110418-DALY

Daly and the Network Equipment Contract

Daly can provide a complete Brocade and/or Aruba networking solution including design, site survey, consulting services, cabling, installation, integration, configuration, support, as well as overall project management.

Daly is a single source of expertise for the end customer – cabling, design, integration, configuration, etc.

About Daly

Now in our 26th year, Daly Computers is a trusted provider of IT infrastructure and service solutions to state and local government and educational institutions. We combine innovative technologies and services into solutions to help our customers succeed. Each solution is customized to our customers' unique specification, matching industry-leading technology with sound deployment and execution strategy. Headquartered in Clarksburg, Md., Daly's offices house a complete 43,000 square-foot integration facility capable of custom imaging, asset tagging, staging and initiating deployment, and customizing over 15,000 systems monthly.
