Integrated Services Division

FY18 PSAP GRANT PROGRAM APPLICATION

HOW TO APPLY/DEADLINE

The grant application is available and accessible from VITA ISP's website (<http://www.vita.virginia.gov/isp/default.aspx?id=8578>). Upon completion of the application, it is to be submitted to the electronic mailbox for grant applications - psapgrants@vita.virginia.gov. Any supporting documentation must also be submitted along with the application when making your grant application submission.

After the close of the grant application cycle, a Grant ID and email receipt notification will be sent to the e-mail address listed on the application received.

All funding requests must be submitted using the grant application. Technical assistance is available from VITA's Public Safety Communications (PSC) staff throughout the grant process. The FY18 PSAP Grant Application Cycle starts July 1, 2016 and concludes on September 30, 2016 at 5:00 pm.

ALL APPLICABLE SECTIONS MUST BE COMPLETED IN ITS ENTIRETY OR THE APPLICATION WILL BE CONSIDERED INCOMPLETE AND NOT ACCEPTED FOR CONSIDERATION.

If technically outdated or non-vendor supported, application MUST include age and/or version of hardware/software.

VERSION: Dapro IBR Plus 5.2.1 # YEARS of HARDWARE/SOFTWARE: 13 years

PRIORITY/PROJECT FOCUS CAD

FINANCIAL DATA

Amount Requested: \$ 150,000

Total Project Cost: \$ 325,590

PROJECT DESCRIPTION

Provide a detailed description of the project for which funding is being sought, including the impact on operational services and consequences of not receiving funding; the relationship to local strategic and capital improvement plans; and sustainability:

The City of Emporia purchased DaPro Systems CAD in 2003. The software interfaces with our Call Answering Equipment, but lacks an operable interface with our mapping software. We were notified in April of 2015 that DaPro had been acquired by ID Networks. ID Networks notified the DaPro customers that they would provide maintenance for up to 5 years but there would be no upgrades/updates to the software. Our CAD system is a critical component of our call taking process, and because the CAD is integrated with the RMS software, replacement of one requires the replacement of both. We would like to replace the CAD system with one that will interface with the Call Answering Equipment and GIS Mapping simultaneously. The hardware will need to be replaced at the same time since it will be over 5 years old upon project completion. Also, present hardware may need to run parallel since some vendors have suggested conversion of existing data may not be possible. Failing to replace the current CAD will jeopardize the effectiveness of our entire Call Taking Process. This project includes tasks associated with maintaining a system capable of receiving the necessary updates/upgrades/maintenance necessary to properly serve our citizens and first responders during emergency situations.

PROJECT GOAL

Describe how this project addresses locally identified need(s) and supports the Virginia 9-1-1 Comprehensive Plan:

The proposed CAD will support the Virginia Statewide Comprehensive 9-1-1 Plan through providing a record keeping and retrieval system capable of communicating with existing systems. This project is intended to equip our 911 Communications Center with the proper software/equipment to properly handle the needs of those who are requesting assistance of our first responders.

PROJECT OBJECTIVES

Describe the objectives that will support the goals identified above:

The objective of this project is to purchase software/hardware for a CAD system prior to the “end of support” date. The system must be capable of upgrades necessary to interface with other Next Generation systems.

SHARED SERVICES (if applicable)

Describe the relationship of the project to the participating PSAPs:

2T

Describe the intended collaborative efforts and resource sharing opportunities:

2T

**IMPLEMENTATION PLAN
SHARED SERVICES & INDIVIDUAL PSAP APPLICATIONS:**

For each applicable phase of the project, indicate the planned completion date.

PROJECT PHASE	PLANNED COMPLETION DATE
INITIATION – Project concept is documented, local board or governing authority approval or endorsement is received, PSAP grant application is filed, local budgets are obtained, appropriated grant funds are approved, and budgetary estimates are obtained.	07 / 01 / 17
DESIGN/PLANNING - Requirements are documented, components to be purchased are identified, and general design is documented.	09 / 30 / 17
ACQUISITION - RFP (or other bid related processes) are drafted, proposals are evaluated, contract is signed, purchase orders are issued, and quotes are obtained.	12 / 31 / 17
IMPLEMENTATION - Purchased components are delivered and installed and training is performed	03 / 31 / 18
TESTING/COMPLETION - Performance of system/solution is validated and system/solution goes “live”	06 / 15 / 18

BUDGET AND BUDGET NARRATIVE

List the planned expenditures to be made with grant funds. Briefly explain the reason for each requested budget item and provide the basis for its cost. In addition, if contingency cost has been added, please identify the amount.

NOTE: In lieu of a line item breakdown, an itemized cost schedule or detailed vendor prepared quote may be submitted as an attachment, but a narrative is still required. However, budgetary quotes received from a particular vendor(s) during the application process do not commit the PSAP to use that vendor(s) once the grant is awarded.

Software/Maintenance Cost per Vendor Quote	\$261,885.00	
Server Hardware costs per Attached Quote	\$ 25,838.00	
Workstation Hardware costs per Attached Quote (x2)	\$ 8,267.96	
Contingency	<u>\$ 29,599.10</u>	
Total		\$325,590.05

EVALUATION

How will the project as identified in the project description be evaluated and measured for achievement and success:

The CAD system will be evaluated by staff after installation to make sure it meets all of the requirements of the City of Emporia. Monitoring of its efficiency will take place on a daily basis.

CONSOLIDATION (Primary or Secondary) - (complete only if applicable)

How would a consolidation take place and provide improved service:

2T

How should it be organized and staffed:

2T

What services should it perform:

2T

How should policies be made and changed:

2T

CONSOLIDATION (Primary or Secondary) - (complete only if applicable) – con't

How should it be funded:

2T

What communication changes or improvements should be made in order to better support operations:

2T

SQL Server 2008 R2 and a backup system will be required.

Wireless modems ("Air Cards") are required for each mobile unit (providers include Southern Linc, Sprint, Nextel, Verizon, Alltel, US Cellular, etc.). Wireless service plans are required for each wireless modem and are provided by Agency. (\$35-75/month/user typical)

Cisco ASA 5505 Router may be required the State. (Approximate cost - \$ 500 - to be provided and configured by the Agency)

A VPN Router in addition to the Cisco ASA 5505 Router is required to secure access to the mobile units if RMS is being run in addition to MDIS (NetMotion preferred). (All connections and fees to Agency LAN including hardware provided by Agency. 100MB Ethernet LAN Required.)

Agency must configure all networking for mobile and CAD workstations to ping servers before installation begins. Use a static IP for private address.

Secure High Speed Internet Access (VPN, Remote Desktop, etc) to servers for support provided by Agency.

All connections and fees to State NCIC including hardware provided by Agency. TCP/IP Interface Required.

Hardware Specifications are located at www.southernsoftware.com
 Proposal of software is valid for (60) days from date of proposal.
 Proposal of hardware is valid for (30) days from date of proposal.
 Management fees include training, installation, and project management.
