COMPREHENSIVE PROJECT DESCRIPTION

Describe how the education/training is 9-1-1/public safety communications specific and how this will benefit E-911 and the employee(s) and/or PSAP.

The PSAP for King William County plans to utilize the PSAP Education Grant to foster 911 education. This is expected to be achieved by sending two of our communications officers and/or supervisory staff members to two different APCO/NENA conferences.

King William will be sending two staff members to the Fall 2018 Virginia APCO/NENA/Interoperability Conference in Roanoke as well as sending two staff members to the Spring 2019 APCO/NENA Conference in Virginia Beach.

All classes are geared towards public safety communications. Most are taught by employees who are still working in the same field. A lot is learned by the sharing of experiences through others which a great benefit in the public safety communications field.

EVALUATION

Describe the evaluation process that will be used to determine if participation in this education/training benefited the PSAP and/or supported E-911 and GIS.

King William does not have a detailed evaluation process. We are able to determine participation benefits by the knowledge and information that the attendee brings back to our agency and shares with the communications operators that were not able to attend the education/training. Notes are reviewed as well as concepts and ideas.
