RE: Information Technology Strategic Plan

Dear Dr. Adams:

I am pleased to inform you that, as required by the Code of Virginia, the Southern Virginia of Higher Education Center's Information Technology Strategic Plan (ITSP) is hereby approved.

In keeping with Governor Terry McAuliffe's commitment to making government more agile and accessible to citizens, I encourage you to be aware of opportunities in the coming months where technology can be used to improve citizens' experience with state government or to improve organizational efficiencies and cost effectiveness thru innovation. Time, tide and technology wait for no one and as a result it is important for agencies to keep their IT planning up to date as business requirements change.

The agency ITSP can be amended as business priorities dictate. Should you need to amend your agency IT strategic plan, please contact your Virginia Information Technologies Agency (VITA) customer account manager.

Sincerely,

A handwritten signature in black ink that reads "Nelson P. Moe".

Nelson P. Moe
