Long Term Releases offer the highest level of stability and the longest length of error correction support. These releases have 5 years of Premier Support followed by 3 years of Extended Support. When combined with Extended Support, customers typically have almost 4 years to upgrade from one Long Term Release to the next Long Term Release. Innovation Release: In between Oracle Database Long Term Releases, Oracle delivers Oracle Database Innovation Releases that include many enhancements and new capabilities which will also be included in the next Long Term Release. Innovation Releases are designed to enable customers to continuously use leading-edge technologies to rapidly develop or deploy new applications or augment existing applications. Support for Innovation Releases includes at least 2 years of Premier Support, but there is no Extended Support. Production workloads can be deployed on Innovation Releases if upgrading to the next database release within Release pattern: 3 months No release date for is available for MySQL 9.0 Oracle lifetime support does not provide security patching and has 3 options: MySQL Premier Support - 5 years, starting at GA, of Premier Support that includes MySQL maintenance releases, updates, fixes (error correction), and security alerts. MySQL Extended Support - 3 years of extra support including error correction, beyond the Premier Support period, for specific MySQL releases. Includes MySQL maintenance releases, updates, bug fixes (error correction), and security alerts. MySQL Sustaining Support - Any time, beyond the Premier Support period. Support only.
