

Windows 7 In-place Upgrades

John DelGrosso, Northrop Grumman

Feb. 13, 2013

NORTHROP GRUMMAN

Overview

Conversion of commonwealth desktops, laptops and tablets to Windows 7 operating system before Windows XP end-of-support by original equipment manufacturer

Milestones	Win7 Planned	Win 7 Complete	% Complete
Project planned (in place only)	34,357	1,851	5.39%
COV-wide (in place + managed service refresh)	53,354	8,396	15.74%

Window 7 Migrations – Current Operations

Staff available to expand operations but need agency-wide approval

Agencies approved for in-place upgrades	Status
Department of the Treasury	Complete
Virginia Information Technologies Agency	In progress
Department of Criminal Justice Services	In pilot
Department of Corrections	In progress at select sites; no agency-wide approval
Virginia Department of Transportation	In progress at HQ site; no agency-wide approval
Department of Environmental Quality	Agency-wide approval granted
Department of Fire Programs	In progress at HQ site; no agency-wide approval
Department of Health	Pilot in progress at HQ site
Department of Motor Vehicles	Pilot in progress at HQ site
Office of the Governor	In planning for desktop in place WIN7

Our challenge:

Achieve agency-wide approval for Windows 7
in-place upgrade project

Our need:

AITR assistance in expediting agency approval

Agency's with approved Windows 7 load sets authorized for agency-wide Windows 7 in-place upgrades

Window 7 Agency Wide In Place Approved				
BOA	DGS	DOC	JYF	VDDHH
CASC	DHCD	DOE	MRC	VDEM
CB	DHP	DOF	OSIG	VDH
CIT	DHR	DOLI	SBE	VDOT
CSA	DHRM	DPB	SCHEV	VITA
DARS	DJJ	DRPT	SMV	VMFA
DBA	DMAS	DSS	TAX	VMNH
DBVI	DMBE	EDR	TRS	VRC
DCJS	DMME	FCMV	VBPD	VSDB
DEQ	DMV	GH	VCA	
DFP	DOAV	GOV	VDACS	

Need large agency participation

Next Steps – Windows 7

- AITR meeting on Feb. 13
 - Request agency-wide acceptance of in-place migrations for all those with approved Win7 load sets (instead of site-by-site)
- Potential additional actions
 - Produce managed services refresh (MSR)-like “Win7 sheet” for distribution to all AITRs through the AOM/CAMs
 - Similar to the MSR sheet process but Windows 7 migration sheets will have locations
 - VITA communication for Windows 7 migration
 - Show number of migrations through hardware refresh to be completed
 - Show number of migrations through in-place migration to be completed
 - AITRs provide points of contact for all locations
 - Describe process (hours per computer, actual process, etc.)

Suggestions - Questions
