

Enterprise Data Management (EDM) General Organization Data Exchange Standard

Joseph W. Grubbs, Ph.D.
Commonwealth Data Governance

Presentation to the
Health Information Technology Standards
Advisory Committee (HITSAC)
March 15, 2012

Data Exchange Standard – Purpose

- To identify attributes for General Organizational (non-health centric) entities that may be used for matching and validation purposes in the EDM solution
- To foster semantic interoperability among Commonwealth Agency data systems that have been onboarded onto the EDM platform
- To ensure conformance with external data exchange standards, such as the National Information Exchange Model (NIEM)

Data Exchange Standard – Process

- Compiled technical information from IBM on the General Organization hub in the Initiate platform
- Harmonized “out-of-the-box” attributes from IBM with existing standards (e.g., COV Procurement Vendor Standard, NIEM)
- Gathered input from COV Agency data stewards and stakeholders during a technical workshop (held 2/23/2012)
- Drafted business narrative and data dictionary for HITSAC review and public comment on ORCA

Attributes

- Legal Name
- Operating Name
 - Doing business as
 - Parent ID
- Address
- Telephone Number
- Facsimile Number
- Email Address
- North American Industry Classification System (NAICS) Code

Attributes

- National Institute of Governmental Purchasing (NIGP) Code (Commodity)
- Status
 - Active
 - Inactive
- Formation Status
 - Date of Formation
 - Jurisdiction of Formation
- Web Site
- General Organization Identifier

Attributes

- Source Data System Identifier
- Legal Entity Type
 - Corporation
 - Partnership
 - Sole Proprietorship
 - Limited Liability Company
- Registered Agent
- Registered Office
- *ConnectVirginia* HIE Participant Status

Action Item

- Questions, Comments & Discussion
- NOTE: The Organization Hub has been determined to be out of scope for SOWs 1&2. However, CDG has been tasked to proceed with review of the standard.
- HITSAC Vote
