

# Executive Directive #7: Leveraging the Use of Shared Data and Analytics

Jay Smith  
VITA Data Analytics Program Management

---

September 29, 2016

## ED7 Report – October 15, 2016

1. Comprehensive review of legal, privacy, and governance concerns as they relate to data sharing
2. Recommendations on how to make data generated by state agencies more accessible and usable by state government and the public as open data
3. Recommendations for data sharing governance, ethical use and authority
4. Recommendations of key analytics projects providing the highest likelihood of realizing value demonstrated by cost savings and better outcomes

# Timeline

<u>Weeks</u>	<u>#</u>	<u>Dates</u>	<u>Milestones</u>
1-2	2	6/13 - 6/24	Stakeholders, Base Plan, Communication & Data Collection Prep
3-7	5	6/27 - 7/29	Data Collection, Follow Up, Assimilation
8-10	3	8/1 - 8/19	Data Input Analysis & Insights
11-12	2	8/22 - 9/2	Develop Recommendations & Write-Up
13-16	4	9/5 - 9/30	Multi-Tier Review Cycles
17-18	2	10/3 - 10/14	Updates & Final Publication

## Data Collection

- Data Collection Input (300+ People)
  - Data Analytics Tools
  - Data Asset Sharing & Constraints
  - Key Analytics Projects
- Focus Groups (70+ People)
  - 12 Sessions
  - Cross Secretariats

## Focus Questions

1. What is the largest data sharing constraint (legal, privacy, governance, etc.)?
2. What are the key factors in data sharing governance (standards, processes, quality, etc.)?
3. What is the largest area of opportunity that can be unlocked by data sharing?
4. What is the largest area of opportunity that can be unlocked by data analytics?
